

IMMACULATE CONCEPTION CATHOLIC SCHOOL

IOWA ASSESSMENT 2016-2017

Class by class grade equivalents

Explanation: At the time of the testing (if student is exactly on level at that time in September) our students are rated at their grade level plus .1; therefore, a student in 2nd grade would be 2.1, a student in 3rd grade would be at 3.1 at the time of taking the IOWA assessment beginning October. Notice our averages are above those grades first month equivalents. A student in 8th grade, taking the IOWA tests in October 2016, would show a grade equivalent of 9.4 compared to where they should be at 8.1.
